

WISCONSIN

PRESS RELEASE

August 9, 2007 Racine, Wisconsin

Tech Corps Wisconsin, Inc. (TCW) is pleased to announce the latest effort in its continued support of children, and computer literacy, in the state and specifically within the Southeast Wisconsin area with the announcement of a project for the John Paul II Academy (formerly Sacred Heart School and St. John Nepomuk School).

"We have been asked to help the newly combined and renamed school with this project by supplying 35 refurbished Pentium 4 desktop computer systems, and one printer to create a larger computer lab, in addition to classroom equipment" said Michael Pitsch; Executive Director for Tech Corps Wisconsin, Inc. Saturday August 11th is the target date for the installation of the computers at the school located at 2023 Northwestern Ave. in Racine.

TCW has previously been involved in the network rewiring of the computer lab and classrooms, and will also provide technical support for all the computer equipment in the facility during the coming school year.

"These computers will facilitate curriculum delivery, and be a great addition for our children in the new larger school, as we endeavor to provide a modern and sustainable school system" said Tom Siefert, co-Principal.

"RIC Electric and WE Design & Remodeling have also contributed significant resources for this project," said Bob Hesse, co-Principal

This project is a continued experiment in re-defining how education is delivered to our community's citizens, wherever they are, to better prepare them to meet the challenges of their futures. The collaborative nature of the project includes a number of public and private businesses throughout SE Wisconsin who provided the material donations and the volunteers who are completing the work. "We are pleased to have been asked to participate in this venture to help make a difference in the futures of area children," said Pitsch.
