

WISCONSIN

PRESS RELEASE

August 13, 2008 Racine, Wisconsin

Tech Corps Wisconsin, Inc. (TCW) is pleased to announce the latest effort in its continued support of children, and computer literacy, in the state and specifically within the Southeast Wisconsin area with the announcement of a project St. Alphonsus School New Munster.

"We have been asked to help them with this project by supplying 32 refurbished Pentium 4 desktop computer systems, and network server system, and a printer to create an updated computer lab, and to provide additional classroom computers" said Michael Pitsch; Executive Director for Tech Corps Wisconsin, Inc. Saturday August 18th is the installation date of the computers at the school located at 6211-344th Ave. in New Munster, Wisconsin.

"These computers will facilitate curriculum delivery, and be a great addition for our children in the school, as we endeavor to provide a modern and sustainable school system here at St. Alphonsus School," said Pastor Fr. Michael Erwin.

"Tech Corps Wisconsin is a wonderful program. The computers they provide to us will be used to enhance academic studies here at St. Alphonsus School," said Technology Coordinator, John Ott.

This project is a continued experiment in re-defining how education is delivered to our community's citizens, wherever they are, to better prepare them to meet the challenges of their futures. The collaborative nature of the project includes a number of public and private businesses throughout SE Wisconsin who provided the material donations and the volunteers who are completing the work. "We are pleased to have been asked to participate in this venture to help make a difference in the futures of area children," said Pitsch.
