## PRESS RELEASE

June 9, 2006 Racine, Wisconsin

Tech Corps Wisconsin, Inc. (TCW) is pleased to announce the latest effort in its continued support of children in the state and specifically within the Southeast Wisconsin area with the announcement of a project for St. John's Lutheran Elementary School in Racine, WI. "We have been asked to help the school with this project by supplying twenty-five refurbished Pentium III desktop computer systems, one notebook computer and one laser printer to upgrade the library computer lab installed by TCW in 2003" said Michael Pitsch; Executive Director for Tech Corps Wisconsin, Inc. Saturday June 10th is the target date for the installation of the computers at the school located at 510 Kewaunee Street.

"The computers will be a great addition for our children and this is one more step in our efforts to upgrade the instructional technology for our entire school, said Principal Ron Seibert.

This project is a continued experiment in re-defining how education is delivered to our children, wherever they are, to better prepare them to meet the challenges of their futures. The collaborative nature of the project includes a number of public and private businesses throughout SE Wisconsin who provided the donations and the volunteers who are completing the work. "We are pleased to have been asked to participate in this venture to help make a difference in the futures of our children," said Pitsch.

To volunteer, donate or sponsor please call 262-619-0931
