

WISCONSIN

PRESS RELEASE

August 16, 2010 Racine, Wisconsin

Tech Corps Wisconsin, Inc. (TCW) is pleased to announce the latest effort in its continued support of children, and computer literacy, in the state and specifically within the Southeast Wisconsin area with the announcement of a project at the St. Joseph Catholic Academy (formerly St. Mark School) in Kenosha.

"We have been asked to help them with this project by supplying 35 refurbished Pentium 4 desktop computer systems, and a printer to create an updated computer lab, and update the classroom computers" said Michael Pitsch; Executive Director for Tech Corps Wisconsin, Inc. Saturday August 14th was the installation date of the computers at the school located at 7207 14th Ave. in Kenosha.

TCW has three times previously (2003, 2005, and 2008) been involved in the creation and updating of the computer lab and classrooms, and will also provide on-site technical support for all the computer equipment in the facility during the coming school year.

"Tech Corps Wisconsin is a wonderful program. The computers they provide to us will be used to enhance academic studies here at the St. Joseph Catholic Academy," said Principal Kerstin Santarelli.

This project is a continued experiment in re-defining how education is delivered to our community's citizens, wherever they are, to better prepare them to meet the challenges of their futures. The collaborative nature of the project includes a number of public and private businesses throughout SE Wisconsin who provided the material donations and the volunteers who are completing the work. "We are pleased to have been asked to participate in this venture to help make a difference in the futures of area children," said Pitsch.

To volunteer, donate or sponsor please call 262-619-0931
