

WISCONSIN

PRESS RELEASE

August 23, 2007 Racine, Wisconsin

Tech Corps Wisconsin, Inc. (TCW) is pleased to announce the latest effort in its continued support of children, and computer literacy, in the state and specifically within the Southeast Wisconsin area with the communication of a project for the Word of Life Christian Worship Center.

"We have been asked to help the Life Center with this project by supplying 10 refurbished Pentium III desktop computer systems, and one printer to create a computer lab inside the Life Resource Center," said Michael Pitsch; Executive Director for Tech Corps Wisconsin, Inc. Saturday August 25th is the target date for the installation of the computers at the Center located at 2915 Romaine Avenue in Racine.

"These computers will facilitate instructional delivery for after school programs, computer training classes, employment searches, and GED classes, as well as other uses," said Pastor R.L. Woods.

This project is a continued experiment in re-defining how education is delivered to our community's citizens, wherever they are, to better prepare them to meet the challenges of their futures. The collaborative nature of the project includes a number of public and private businesses throughout SE Wisconsin who provided the material donations and the volunteers who are completing the work. "We are pleased to have been asked to participate in this venture to help make a difference in the futures of area children and adults," said Pitsch.

To volunteer, donate or sponsor please call 262-619-0931
